

25th National Energy Conference

ENERGY+DEVELOPMENT

1-2 December 2021

MY THREE POINTS FOR THE DEBATE, CONCERNING THE FOLLOWING:

- How does the Green Deal look in the context of the regional energy cooperation – supporting or provoking it?
- What are the up-to-date business expectations at regional (SEE) level in a short term perspective and what causes them?
- Few words on the next steps, concerning the Bulgarian energy market – on the legislative moves and business opportunities in a short term run
